KONCEPT

LA ELEGANCIA DEL CEMENTO COMO BASE COMBINATORIA

De inspiración minimalista, **Koncept** reproduce el diseño del cemento como base para crear interiores exclusivos en los que la sintonía cromática y las posibilidades combinatorias alcanzan su máxima expresión. Una colección que se completa con cinco series más, configurando una unidad decorativa superior de texturas evocadoras.
Su diseño no termina con cada pieza, puesto que en su coordinación cromática, mezcla de formatos y combinación de texturas reside su singularidad. Con vocación técnica e integral, nace para poner valor a la riqueza arquitectónica de los proyectos más exigentes y para ser aplicada de forma única. Porque cada proyecto es diferente, cada uno obedece a su propia lógica, a su propio uso... Koncept, un nuevo concepto vanguardista que llega como una visión renovada del porcelánico técnico.

THE ELEGANCE OF CEMENT AS A BASE FOR NUMEROUS COMBINATIONS

Inspired by minimalism, **Koncept** takes the design of cement as the foundation for creating exclusive interiors where finely balanced colour and potential combinations know no bounds. This collection is accompanied by five series to offer a superior quality decorative ensemble of evocative textures.
Koncept's design goes beyond each individual piece as its singularity lies in the way it coordinates shades, blends shapes and combines textures created with high technical specifications and as an integral whole, it is designed to embellish the architectural richness of the most demanding projects, and to be used in a unique way. Because every project is different, each one follows its own rationale, each has its own purpose... Koncept, a new avantgarde concept that offers an innovative perspective on technical porcelain.

L'ÉLÉGANCE DU CIMENT COMME BASE POUR LES COMBINAISONS

D'inspiration minimaliste, Koncept reproduit le design du ciment comme base pour créer des intérieurs exclusifs, où l'harmonie chromatique et les possibilités combinatoires atteignent leur expression maximale. Une collection qui se complète par cinq autres séries, configurant une unité décorative supérieure aux textures évocatrices.
Son design ne termine pas avec chaque pièce, car sa singularité réside dans sa coordination chromatique, mélange de formats et combinaison de textures. Avec une vocation technique et intégrale, la collection naît pour mettre en valeur la richesse architecturale des projets les plus exigeants et pour être appliquée de forme unique. Parce que chaque projet est différent, chacun obéit à sa propre logique, à son propre usage… Koncept, un nouveau concept d'avant-garde qui naît avec une vision rénovée du grès cérame technique.
